Creative and detail-oriented Graphic Design & Communications professional with experience producing digital and print assets, managing website and CMS content, supporting social media campaigns, and contributing to publication design. Skilled in Adobe Creative Suite, layout design, UX-aligned content structure, and cross-functional collaboration. Brings hands-on experience in magazine production, digital storytelling, and event-related media creation. Seeking to contribute strong design, communication, and organizational skills to The Arbutus Club's Communications team.

Core Skills

- Graphic Design (Adobe InDesign, Photoshop, Illustrator, Acrobat)
- Digital & Print Layout Design
- Social Media Content Creation
- Photography & Basic Video Editing
- Web & CMS Management (WordPress, Wix, Squarespace, WebStudio)
- Email Campaigns & Digital Messaging
- UX/UI Principles (wireframes, user flows, content hierarchy)
- Internal Communications & Cross-Functional Collaboration
- Accessibility, QA, and Brand Consistency
- HTML/CSS

Education

Bachelor of Arts in English and Creative Writing
Trinity Western University
December 2025

Associate's Degree in Digital Design and Development
British Columbia Institute of Technology | May 2021

Relevant Experience

Digital Content & Web Coordinator Glass Canvas | June 2026 – Present

- Design digital assets, page layouts, and promotional graphics for nonprofit and ministry clients.
- Create and update content across multiple CMS platforms, ensuring accuracy, accessibility, and brand consistency.
- Support digital campaigns with visual content, email messaging, and optimized landing pages.
- Collaborate with project leads and cross-functional teams to deliver timely, high-quality digital updates.
- Troubleshoot formatting issues and maintain visual standards across websites and digital materials.
- Manage multiple design and content projects simultaneously in a fast-paced environment.

Web & Digital Communications Editor Mars' Hill Magazine – Trinity Western University | September 2025 – April 2026

- Designed digital graphics, promotional materials, and social media assets for campus-wide communications.
- Contributed to publication design and editorial planning for Mars' Hill Magazine.
- Updated and maintained the website (Squarespace), ensuring timely publication of issues and articles.
- Conducted QA reviews, accessibility checks, and content audits to maintain high editorial standards.
- Produced photography and basic video content for digital promotions and storytelling.
- Collaborated with editors, writers, and communications staff to support magazine and digital initiatives.

Web Developer and Designer StayShure | September 2021 – November 2023

- Designed UI layouts, graphics, and interaction patterns in Figma for web and mobile products.
- Created documentation, visual guidelines, and digital assets for engineering and marketing teams.
- Conducted UX audits to improve clarity, accessibility, and user experience.
- Supported iterative design improvements through testing and structured feedback cycles.

Digital Design & Front-End Support Volatus Aerospace | Mar 2021 – May 2021

- Designed UI layouts and digital assets for product releases.
- Performed QA reviews to ensure visual consistency and clarity.
- Prepared mockups, graphics, and content structures for engineering teams.

Relevant Experience (continued)

Digital Marketing Intern

STEMCELL Technologies | June 2019 – August 2019

- Supported digital content workflows and asset preparation for marketing campaigns.
- Assisted with analytics tracking, reporting, and performance monitoring.
- Collaborated with digital teams to maintain accurate, user-friendly content across platforms.
